

Flow of issuance of information about tsunami and earthquake

Earthquake

2min.

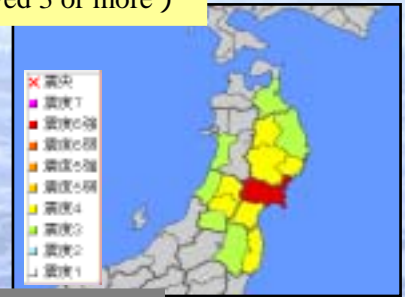

3min.

5min.

Tsunami Warning / Tsunami Advisory

Seismic Intensity Information
(Regions which observed 3 or more)

Tsunami Information
(Forecast of height and arrival time of initial wave)

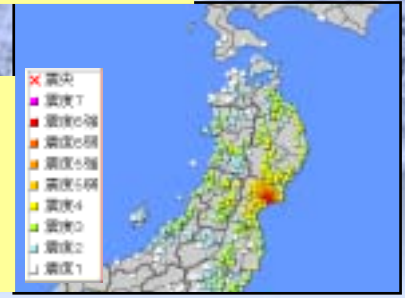

Earthquake Information
(Location / magnitude of the earthquake)

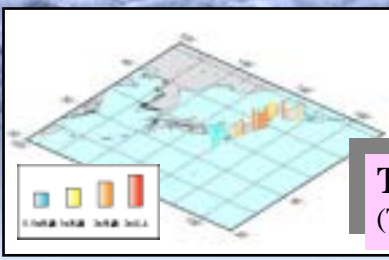

Tsunami Information
(Arrival time of tsunami and high tide)

Earthquake and Seismic Intensity Information
(Location / magnitude of the earthquake and seismic intensity distribution)
(areas of 3 or more)

Tsunami Information
(Tsunami observations)

Information on seismic intensity at each site
Location, / magnitude of the earthquake seismic intensity distribution
(all stations which observed 1 or
